

## PALLADA SUNK

Another Russian Cruiser Gone

## FIGHTING GOES ON AT PORT ARTHUR

The Russian Port Arthur Ships are Again on the Open Sea, Forced Out by the Japanese shell fire

### RUSSIANS AGAIN IN THE OPEN SEA.

Chefoo, Aug. 16.—The Russian ships at Port Arthur made a sortie early today.

They are being pursued by the Japanese. A severe engagement is expected. The Japanese fleet kept off some distance from the entrance to Port Arthur during the past night, fearing danger from torpedoes in the darkness. The battle, it is now believed, will take place in this vicinity.

### RUSSIAN CRUISER SUNK.

Tokio, Aug. 16.—It seems certain that the Russian protected cruiser Pallada was torpedoed and sunk during the naval battle of August 10th. She failed to return to Port Arthur and has not been reported since. Admiral Togo's fleet departed on various missions, the night of August 10th, when the Russians retreated.

Related reports from various vessels continue to reach Admiral Togo. The Japanese destroyers and torpedo boats made a series of attacks during the pursuit of the Russian warships.

A destroyer reports that she hit a vessel of the Pallada type, and it is thought the vessel foundered, and it is believed to be probable that the entire crew were either killed or drowned.

### BATTLESHIPS DISMANTLED.

Sing Chou, Aug. 16.—The Russian battleship Czarevitch and three torpedo boat destroyers now in the harbor of the local German government for repairs have been dismantled.

### THE RUSSIAN LOSSES.

St. Petersburg, Aug. 16.—The official Messenger publishes a dispatch from Liao Yang, which says: "News from Port Arthur announces the Russian casualties there in the attacks on the fortress on July 26th, 27th, and 28th, were as follows:

"Killed: 2 officers and 1,553 men; prisoners, 1 officer and 83 men; eight hospital assistants.

### FIGHTING AT PORT ARTHUR.

Berlin, Aug. 16.—A despatch to the Tokai Anzeiger from Tokio, dated yesterday, contains reports that heavy fighting has occurred at Port Arthur during the past few days.

The Japanese charged the Russian batteries and secured good positions close to the inner fortifications, besides inflicting heavy losses.

### BOMBARDMENT COMMENCED.

The Japanese have commenced a bombardment from Lang Mountain on the harbor.

### HAVE THE JAPANESE LOST A SHIP.

Chefoo, Aug. 16.—A telegram just received from Thi Tsing says that the officers of the Russian battleship Czarevitch assert that a Japanese ship sunk while in view of the battle on the night of August 10th.

### DETAILS OF THE SORTIE.

St. Petersburg, Aug. 15.—Reports received from Victor Alexieff concerning the sortie of the Russian fleet from Port Arthur on Wednesday shows it was the greatest naval battle of ironclads since steel replaced wood in naval construction. Practically the whole Russian fleet was disabled. The Japanese lost some boats.

The fleet would have forced its way through the Japanese, who were lined up in three detachments, if the battleship Czarevitch had not got damaged, which compelled the squadron to fight a second battle, ending in their dispersion in darkness.

Togo had six battleships and eleven cruisers, in the list being the names of several ships previously reported destroyed, showing that Togo concealed his strength.

Tokio, Aug. 15.—Before the Russian fleet left Port Arthur harbor the Japanese land batteries could reach the warships with their shells and the decks were exposed to the severity of their fire.

Chefoo, Aug. 15.—Two Russian destroyers were found stranded twenty miles east of Wei Hei Wei. Their crews arrived at Wei Hei Wei. They number sixty.

The battleship Czarevitch at Sing Chou will be dismantled as her fighting days are over owing to the serious damage inflicted by the Japanese Wednesday. She is unable to leave port.

The Russian torpedo boat destroyers Bezposatchik and Bezsepmi, are taking coal at Sing Chou. The German cruisers there have prepared for action and it is believed they will not allow the departure of the Russian ships.

The main portion of the Japanese fleet, in personal command of Admiral Togo, has gone north. It includes all the battleships.

The whereabouts of the Russian cruisers Novik and Pallada are unknown.

A cipher message from Osaka, Japan, confirms the previous reports that the Japanese main squadron is bound for a northern destination on an active cruise.

## PARLIAMENT

Ottawa Correspondence:

A Saturday Sitting

Saturday's sitting was not very fruitful of business, although it was held for the purpose of closing up the session if possible. The Canadian Associated Press despatches and the aid given by the Government were under discussion. The Minister of Finance disclaimed any control whatever over the despatches. If Parliament did not approve of their nature, it might withdraw the grant, but the Government could not do otherwise than pay as Parliament had directed last year.

Alien Labor Bill Passes

The Alien Labor bill was read a third time with some little further discussion. An amendment was moved by Mr. Boyd to permit the importation of farm laborers from the States. The Minister of Labor pointed out that there was no necessity for the provision as the present conditions were not changed by the bill. The amendment was declared lost on division.

The New York Mutual Reserve Fund Life Co.

The Senate bill respecting the New York Mutual Reserve Fund Life Association was up for consideration, and was the occasion of a sharp discussion as to the merits of the company and its business methods.

Dr. Spruce explained that the company had got into such a position that, being an assessment company and its membership continually decreasing, its assessments were continually rising so that it was only a matter of time when the assessments would become so high that the people could not or would not pay them and they would lose all they had paid in by the lapse of their policies. The bill was for the purpose of re-adjusting the business of the company so that the policy-holders by accepting a policy of reduced amount would be only required to pay a level premium.

Mr. Heyd, who introduced the bill, gave figures to show that under the proposal a \$5,000 assessment policy would be converted into a \$145 level premium policy. The premium to be paid by the policy-holder would be based upon his age at the time of the passage of the bill and not upon the age at which he took the insurance.

Mr. Oliver opposed the bill on the ground that as it undertook to deal with eight million dollars of policies now held by the people of Canada and to reduce them to a supposed value of about three millions it would be proper to have an enquiry as to the business methods of the company which resulted in this necessity. There was a general agreement on the part of the members of the House who spoke that the methods of the company were anything but creditable or such as to give assurance to its policy-holders. He thought that a bill containing such provisions brought in under such circumstances required more consideration than Parliament was able to give it within a few hours of the end of a long session. The fact that forty policy-holders had objected to the change of base and nearly a hundred had declined to express an opinion, and the further fact that the bill had been the subject of contention in the Senate for several months, would indicate the importance of the questions involved, and that they could not be creditably disposed of by the Commons without thorough consideration. He said:

"Parliament is in reality constituting itself a bankruptcy court to put the company through on the basis of

50 or 40 cents on the dollar. A policy holder is given the alternative of dropping two-thirds of his insurance or of continuing on a plan which means his complete robbery. It is Hobson's choice. He must take 50 or 40 cents on the dollar or nothing at all."

Mr. Gervais moved an amendment to the bill that the deposit now held by the Government, amounting to \$226,000, should not be returned to the company, except for the payment of claims, for a period of five years. He contended that if the legislation was passed the company could at once withdraw a large part of its deposit and leave its policy-holders without recourse.

The amendment was lost on division and the bill received its third reading.

## Several Third Readings

Bills to amend the Lands Titles Act of '94, to amend the Customs Act, and to amend the act respecting lead bounties, were read a third time.

Trent Valley Canal

Ward, Conservative, for East Durham, Ont., spoke for two hours in advocacy of the Port Hope outlet for the Trent Valley Canal.

He was followed by Porter, Conservative, who spoke for an equal length of time advocating the Trenton outlet of the same canal. This, with a third speech by Mr. Gervais, of Montreal, on the subject of Commercial agencies, exhausted the night's sitting and the House adjourned at 12 o'clock.

Ottawa, Aug. 8th, 1904.

## Captain Thackery Reports

Ottawa, August 13th.—A report received at the militia department from Captain Thackery, who is in the Orient, to pick up whatever lessons may be derived from the Russian-Japanese campaign, says that after a long delay at Tokyo he was to leave on July 21 to embark to Dalny to join the Japanese army at Port Arthur. The captain complains of the four months he was compelled to remain in the Japanese capital, before getting to the scene of activity, and adds that every obstacle was thrown in the way of his observing the methods employed in the mobilization, entraining and embarkation of troops. The desire for secrecy extended even to the medical arrangements. He hopes that a little more latitude will be allowed when in company with other attaches he reaches the front.

Capt. Thackery forwards an article on the Shimose powder, which is in use in the Japanese army. It says that the Shimose compound is two degrees more destructive than dynamite while gun cotton, on which lyddite and other military big explosives are based, comes much below the Japanese compound. Its cost of manufacture, moreover, is one-half that of gun cotton. Ordinary explosives explode after they have pierced an iron plate, for instance, but with this Shimose powder the piercing and detonation are practically simultaneous, and the fragments are, therefore, numberless, from 2,000 to 3,000, and scattering in all directions, which would mean the most fearful carnage if the explosions occurred on a ship's deck. One Russian blue jacket on the Sariga was wounded in no less than 160 different places by the explosion of a Shimose shell during the engagement at Chemulpo. Many deaths counted from the mere blast, where no wounds were shown at all.

Very strict regulations are enforced by the Japanese army regulations for cleaning the field after an engagement, and for burying those who may have been killed or who have died of disease. From this it appears that the corpses are cremated separately, only the bony parts being preserved and sent home. When this is impossible the hair is forwarded to the relatives. Provision is made for funeral ceremonies, which may be conducted by the Shinto, or Buddhist priests, chaplains or priests of other religions. The regulations stipulate that burial shall be given to any of the enemy's dead that may be found.

Rules for the treatment of prisoners of war provide all the comforts consistent with the conditions. Captured officers are treated according to their rank, and daily ration allowances of sixty sen for officers and thirty sen for non-coms, and men are allowed. The menu includes bread, meat and vegetables, sugar, salt and "Appelizers." Between meals biscuits, sweets and fruits and black tea may be served to the captive officers and others, and allowance is also made for new wearing apparel, and for prisoners to keep their clothes in order.

## The Far North East

Ottawa, Aug. 11.—Major Moodie, who went up to Hudson's Bay last fall to establish the authority of the Canadian government in that district, reached Ottawa last night and reported to the Mounted Police Department today.

McDougall & Secord

Phone 36.

He says that properly constructed vessels should have no trouble getting through the Hudson's Straits in and out of Hudson's Bay, from June to about October. He was not able to get out of the bay this season till July 18, but the spring this year was exceptionally late, and whalers said that navigation was usually clear in the first week in June.

The major says that neither cod, herring or mackerel are found in the waters of Hudson's Bay, although the coast abounds with salmon trout and Arctic salmon. The coldest point that the thermometer registered last winter at Fullerton, where the expedition wintered, was 53 below zero. This was in March. Before he left Hudson Bay in July the temperature had climbed already as high as 67.

Whales were reported to be rather scarce. Last year whalebone was worth \$10,000 a ton. This year the price is said to have gone to \$15,000 a ton.

Major Moodie is uncertain when he will return. He will probably take his wife with him when he goes.

## Business Education

Excellent training in stenography, type-writing, book-keeping and kindred subjects can be obtained in Alberta college, Edmonton. The college has a full staff of certified teachers in the departments of

Art, Business, Music and Eloquence and Physical Culture

The academic department is specially designed for a class of general students. Mr. Percy Hook, late of the Toronto College of Music; Miss B. Crawford, of Woodstock College, and the Misses Webster and Bellamy are the teachers in music, elocution, and physical culture. The new building is situated on First street, south of Jasper. Board and room can be obtained in the College. Business and Music departments open September 1, Arts and Academic October 1st. For fees and further particulars apply to the principal.

Defeats Strathcona in a Seven Innings  
Game by a Score of Thirteen to Two

The Edmonton baseball team were called up on short notice by the Strathcona team and asked to give an exhibition match in Strathcona yesterday evening. Despite the short time following the announcement of the game both teams were on the diamond in full strength. The game was a splendid one and the Strathcona team put up a much better fight than the score would indicate. A pleasing feature of the game to Edmonton was the fact that Stokes, the regular Strathcona pitcher, was in the box. Stokes pitched for Edmonton at Fort Saskatchewan, when Edmonton won out and the Strathcona papers took all honor for the victory from the fact that Stokes was pitching. Last night the Strathcona team with Stokes, sustained a much worse defeat.

Doubtless owing to the attractions of the circus, only a small number of the most enthusiastic witnessed the game. On account of darkness only seven innings were played. Magirl pitched a splendid game for Edmonton and got perfect support. The Edmonton outfield did first-class work, while the infield were seldom called on to do anything. Magirl struck out a good percentage and watched the bases closely. The game was Edmonton's from first to last. The final score stood 13 to 2.

The line-up of the teams was:

Edmonton	Strathcona
Catcher.....	Dobson
Pitcher.....	Stokes
First Base.....	Fiddler
Second Base.....	Kinnear
Shortstop.....	Hay
Third Base.....	Dobson
Left Field.....	Blain
Center Field.....	May
Right Field.....	Sword

Mr. McKenzie of Edmonton, gave good satisfaction as umpire.

Strathcona will play a return game in Edmonton on Friday evening.

The lacrosse committee request the following players to turn out to practice to-night: Watkins, Thompson, Maloney, Brandt, Pearson, Elliott, A. Johnston, W. Banford, R. Johnston, C. Banford, D. McKinnon, A. McKinnon, McNamara, Wymer, Maveety, Nott, Forrest, Kemp, Madden, Morris, Jardine, Cross, Milne, Sawie, Greenwood, Thom McDonald, Price, Humestone, Harper, McCrimmon and any others who play the game.

## THE BODY FOUND

## YESTERDAY

The Remains of Mrs. Kuhnert Found  
in the River. Inquest Held This Morning

Ever since the disappearance of Mrs. Kuhnert, friends have been keeping a watch on the river. Yesterday, J. C. Johnstone, brother-in-law of the

deceased, rowed several miles down the river, following closely along the banks. He came upon the body of Mrs. Kuhnert caught on some brush on the north bank of the river about five miles below the city. Word was immediately sent to the city and the coroner, Dr. Braithwaite, was summoned. Accompanied by Corporal McLeod, he drove to where the body was found and held a post mortem examination.

The remains were then taken to the family residence on McDougall street. The inquest was held this morning at ten o'clock. The jury were only out a few minutes when they brought in a verdict of death from suicide by drowning on the night of August 6th.

## Canada's Trade

Ottawa, August 16th.—The aggregate foreign trade of Canada last year, consisting of the total imports and total exports for the fiscal year ending June 30th last, is estimated to amount to \$475,000,000 as compared with \$467,000,000 for the previous year, or an increase in round numbers of \$8,000,000. On the basis of imports entered for consumption, and domestic exports the increase would be \$1,682,986. There was a falling off in domestic exports for the year just closed, amounting to \$15,987,235. In the exports of foreign goods from Canada, there was an increase of \$4,000,000. The decrease of domestic exports is very largely accounted for by the fact that there was a large decrease in the export of wheat. In 1904 we exported only 16,779,028 bushels as compared with 32,935,745 bushels in 1903.

There was also a large falling off in the exports of butter, which decreased by 10,000,000 pounds. On the other hand the export of cheese shows a gain of 3,000,000 pounds. Following are the details of the trade returns so far as compared:—

## IMPORTS FOR CONSUMPTION.

1903	1904

## PARENT NOMINATED

### PERMANENT

Director to Represent Canada on the  
G. T. P. Railway Board of Directors

Bulletin Special Dispatch.  
Winnipeg, August 17th.—A report from Quebec says that the Hon. S. N. Parent, Premier of Quebec has been nominated by the Government as a permanent director to represent the Government on the Board of Directors of the Grand Trunk Pacific. Mr. Parent will accompany President. Hays on his western trip.

## DAUPHIN DISTRICT

### EXHIBITION

Splendid Weather and Numerous Exhibits Make it a Marked Success

Bulletin Special Dispatch.  
Dauphin, Man., August 17th.—The 18th annual fair of the Dauphin Agricultural Society took place yesterday. Good weather contributed much to a splendid success.

The exhibits throughout were the best in the history of the Society. Live stock classes were all filled.

## CITY COUNCIL

### MEETS

In Regular Session. City Called to pay Heavy Damages for Detention in Custody by Police

The regular meeting of the Edmonton city council was held in the usual place yesterday evening commencing at eight o'clock. Councillors Cushing, Fraser, May and Beard were present. In the absence of the Mayor Councillor Cushing was voted to the chair. The minutes of the last regular and adjourned meetings were read and confirmed.

### COMMUNICATIONS.

The Secretary of the Board of Trade asked for the payment of an account for \$188.44 being the loss on the sale of seed oats imported from Ontario. The bill was ordered to be paid.

The Secretary Treasurer of the Board of Trade asked that 2000 copies of the Sutter Pamphlet be sent to the Toronto Exhibition for free distribution. The city secretary was instructed to ask Mr. Sutter for the pamphlets and that the same be handed to Mr. Tins. Later in the evening Mr. Sutter addressed the council on this matter regarding the town purchasing the pamphlets. The council were of the opinion that these pamphlets should be given gratis as a donation had already been made to the pamphlet.

Taylor, Boyle & Gariepy presented a claim for \$1000 damages for Omar St. Germain for alleged unlawful detention in custody by the city police. This was referred to the solicitor.

An offer of \$37 was made for the old building formerly occupied by the power house engineer, by the Secretary of the Board of Trade. The city secretary was instructed to inform him that arrangements were being made by the council for the disposal of the building.

Howell, Matheson & Howell, solicitors, Winnipeg, asked for an option for four weeks on city waterworks debentures for their client R. Wilson Smith of Montreal. The option was granted.

The Puckett electric company were awarded the meter contract.  
A bill of R. S. Kelsch, electric light consulting engineer, for \$218 was ordered to be paid.

### REPORTS.

A. W. Ormsby advised the purchase of a set of instruments for testing transformers. The report was adopted and Mr. Kelsch will be consulted and the purchase made.

## SENSATIONAL CROP

### REPORTS

From Winnipeg Have Helped the Wall  
Street Bulls to Boost the Price of Wheat

Bulletin Special Dispatch.  
Winnipeg, August 17th.—When the history of the present bull movement in wheat comes to be written, it will be seen that not the least potent factor in making toward a high range in value were the highly sensational, and if the opinions of leading and most reliable members of grain trade in Winnipeg can be believed, the absolutely false statements sent from here to Minneapolis to help the bull clique in a campaign of boosting values.

## RAILWAY COMMISSION'S VISIT POSTPONED

Owing to illness of the Hon. Mr. Blair, chairman of the railway commission, the commission will not visit Edmonton on the date arranged. The party will go to Banff for a few days, and thence to the coast. They will arrange to visit Edmonton on their return from the coast if thought necessary.

The Bullock company were asked to ship immediately 225 K. W. for the power house and the balance of the machinery before September 1st.

The removal of the ceiling in the power house was referred to the Fire, Water and Light Committee and Engineer McNaughton.

The tender of the Great West Sashery company for a "double" leather belt for the dynamo at the powerhouse at the rate of \$127 cents per foot was referred to the Fire, Water and Light Committee with power to act.

Jno. Cameron & Co. presented a bill for 14 tons of coal which was used for testing purposes. The account was ordered paid at the rate of \$24.00, ton.

Beck, Emery & Newell wrote regarding the application to the Assembly regarding the extension of the city limits.  
The Town Engineer reported that the water was being drained from Fraser avenue fronting A. B. Potter's residence; the cost of laying a four-inch main and an eight-inch tile from the intersection of College avenue and First street to the brewery would be \$4750. A copy of this report was ordered to be sent to W. Lines, manager of the brewery. The extension of the water main and sewer system on Namayo avenue from Fourth to Fifth streets R. L. 10, will cost \$1290.30. This work will be proceeded with provided the adjoining property holders guarantee to become water users. The engineer further reported that the cost of the pipe and water rates to be charged against the Exhibition Association be \$35.30.

Waterworks engineer McNaughton reported on the handling of coal from the river to the power house. This work will not be undertaken at the present time.

Local Improvement petitions 19 to 30 were recommended to be proceeded with at once.

Larue & Beard received the tender for the supply of the rain coats for the city police at ten dollars each.

The purchase of rubber coats and boots for the fire department was referred to the Fire, Water and Light Committee.

Three tenders were read for the construction of a cement sidewalk around the Alberta Hotel. It was finally decided to commence the work at once by day labor under the direction of the city engineer.

### BY-LAWS.

By-Law 273, a by-law to amend by-law 242, the fire by-law was read a second time and was finally passed.

By-law 278, a by-law, to provide for the raising of \$8000 to meet the city's proportion of the cost of straightening Jasper avenue East, was given its three readings and was provisionally passed. Voting takes place on this by-law on September 12th.

By-law 279 for the levying of rates was given its three readings and was finally passed.

The meeting then adjourned.

## Railroad Talk

Fernie Free Press:

"It is reported that three camps of surveyors are at work between Lethbridge and Pincher Creek. This report is in accordance with the general accredited plans of J. J. Hill for a connected line through the Crow's Nest and Southern Alberta. It is reported on what may be considered very good authority that the Morrissey-Fernie line will not stop here, but that the work of extending the line to Michel will go on without delay. It is probable that the same contractors will do the work and that the construction supplies will be kept here over winter that the work may commence early next season. This is another link in the chain and but one more remains, that from Michel over the summit to Pincher Creek. When this line is an accomplished fact it doubtless will be in the course of a couple of years, the Crow's Nest towns will be greatly benefitted by the increased traffic. No one knows the possibilities of this section better than does Mr. Hill and the fact that he sees the need for another through line may be regarded as a bright omen for the future of the Crow's Nest.

## Saloon is Popular

New York, N. Y., Aug. 13.—New ambition has been furnished those who condemn Bishop Potter for his part in the opening of the Subway saloon. Patrons of the saloon, it has been learned, can get as much whisky there as they desire, more or less complete cases of intoxication being laughed at by the men behind the bar. One of the day's customers drank eleven glasses of whiskey in an hour and a half and toward the end of the drinking bout in which three persons took part, was lying over on the bar, reeling and spilling his chaser, swearing and acting in the capricious manner affected by so many persons under the influence of strong drink. Beyond a mild, soft-spoken chiding by the bartender, he was not called to account, or even to keep quiet. Treating, which, it was asserted, would be frowned upon in the tavern, is a common thing. So heavy has business become that twenty more half barrels of beer were delivered today. Large numbers of workmen are patronizing the place and mingled with them are well dressed persons. Hereafter, it is said, the "seeing New York" automobile will pass the tavern corner. Many ribald jokes on religion are heard in the place. "Give me a halloo-jump highball," one man said to the bartender, and another asked for a Dooxology cocktail.

## New Ads.

LOST.  
A dark colored overcoat on Saturday evening. Finder will please return to the Station Smith Co., McDougall St. D-192-11.

## War Notes

Continued From Page Two.

gram were telephoned to the admiral and became quickly known throughout the city. The return of the majority of the Russian warships to Port Arthur has not softened the blow. On the contrary it is felt that their retreat towards the beleaguered fortress has dashed the hopes of a juncture with the Vladivostok squadron. Naval men believe, however, that the Japanese were badly battered, and that Admiral Togo will not be in a position to follow up his success.

The Associated Press is able to report the highest authority to deny the report that the Argentine warships have been purchased by Russia and that they have joined the Vladivostok squadron. The admiralty strongly repudiates the allegation that the battleship Czarevitch is being repaired with German assistance. No such breach of neutrality is possible. The report is attributed to the admiralty to a Japanese source, the Japanese, it is added, hoping to offset it against their own flagrant violation of neutrality in the attack on and capture of the Russian torpedo boat destroyer, Ryeshiteini, at Chefoo.

London, Aug. 13.—A dispatch from Shanghai published in the Times says the reason given for the entrance of the Russian torpedo boat destroyer Grozovoi into that port is that it is necessary to repair her machinery. The vessel, the dispatch adds, shows no signs of recent fighting except that the forward rails are damaged. The hull, guns and torpedo tubes are uninjured. The officers of the Grozovoi report that the Russian warships, after a severe engagement forced their way through the Japanese fleet and escaped in several directions.

Tokio, Aug. 13.—A despatch from Chefoo says that in the battle off Port Arthur on Wednesday the Russian battleship Peresviet fought until she lost all her masts and that the battleship Sevastopol was put out of the fight by an injury to her steering gear which made it impossible for her to manoeuvre.

Washington, Aug. 13.—U. S. consul General Goodnow reported to the state department that the Russian cruiser Askold arrived at Shanghai today seriously damaged and wanted to dock. The fact has written to the Russian consul general, Mr. Goodnow states, that the cruiser and torpedo boat must not remain more than 24 hours. The Russian consul general raises the point that they are entitled to remain a reasonable time to make repairs.

Tien Tsin, Aug. 13.—It is believed here that the Japanese are beginning a general engagement at Liao Yang to continue until the fall of Port Arthur, the final assault upon which is thought to be in progress.

Tokio, Aug. 13.—The emperor yesterday sent congratulations to George V on the bravery of the combined fleets in defeating the Russians. In the afternoon the emperor held a council of war.

Tokio, Aug. 13.—Jiji, in a strong editorial, says Japan must insist that neither Germany nor China shall harbor Russian warships in her harbors. The case of the Russian gunboat Mandjur, which was allowed to disarm and remain at Shanghai, thus escaping capture, must not be made a precedent.

London, Aug. 13.—The general opinion of the London morning newspapers is that the Japanese will make movement for the Ryushiteini affair by restoring the ship to the Chinese authorities, but at the same time it is admitted that international obligations have so frequently been thrust aside during the course of the war that Japan may possibly feel entitled to make a law unto herself.

London, Aug. 13.—A dispatch to a newspaper from Tokyo says: Another sign that a general assault on Port Arthur is imminent is found in the fact that the Emperor of Japan has notified Field Marshal Yamagata, chief of the general staff, of his desire that non-combatants be allowed an opportunity to leave the fortress. The chief of staff, consequently, instructed the Japanese commander at Port Dalny to accord the necessary facilities for their removal.

Further details of the naval engagement of August 10 indicate that Admiral Togo's main attack was directed against the Russian battleships, and that while this was going on the Russian torpedo boats succeeded in getting away.

Berlin, Aug. 13.—Japan has given the German government an intimation that she is preparing a statement regarding the seizure of the Russian torpedo boat destroyer Ryeshiteini at Chefoo. The foreign office, therefore, is disinclined to express its views on the Washington dispatches indicating that the state department is concerned about the apparent breach of neutrality on the part of Japan's torpedo boats.

Paris, Aug. 13.—A despatch to the Temps from Liao Yang says: "The

Japanese outposts are eight miles southward of Hai Chan Chwang. The Japanese advance has entirely stopped.

"The Chinese affirm that several regiments have been detached from this army and sent to Port Arthur.

Tokio, August 12th.—6 p.m.—Admiral Togo has reported as follows:

"On August 10th our combined fleet attacked the enemy's fleet near Gusan rock. The Russian vessels were emerging from Port Arthur, trying to go south. We pursued the enemy to the eastward. Severe fighting lasted from 1 o'clock Wednesday until sundown. Towards the close the enemy's fire weakened remarkably. His formation became confused, and then his ships scattered. The Russian cruisers Askold and Novik and several torpedo boat destroyers fled to the southward. Other of the enemy's ships retreated separately toward Port Arthur. We pursued them, and it appears that we inflicted considerable damage. We found life buoys and other articles belonging to the Russian battleship Czarevitch floating at sea. The Czarevitch probably was sunk. We have received no reports from the torpedo boats and the torpedo boat destroyers which were engaged in the attack on the ships of the enemy. The Russian vessels, with the exception of the Askold, the Novik, the Czarevitch and the cruiser Pallada appear to have returned to Port Arthur. Our damage was slight. Our fighting power has not been impaired."

London, August 13th.—According to the correspondent of the Morning Post at Shanghai the Russian torpedo boat destroyer Grozovoi, has reached there.

Chefoo, August 13th.—A report from Tsingtau says that the Russian warships still there are the battleships Czarevitch, the protected cruisers Pallada and Novik and three torpedo boat destroyers. The Czarevitch, which is badly damaged, is being repaired with German assistance, it is alleged.

A report has also been received here to the effect that Admiral Wihoff was killed in the naval battle off Round Island last Wednesday.

A strong detachment of Japanese warships is reported to have sailed south for the purpose of intercepting the Vladivostok fleet which it is believed, has not yet effected a junction with the vessels reported to have been purchased from the Argentine Government.

Shanghai, August 12th.—The Russian protected cruiser Askold arrived at Woo Sung to-day with her fifth funnel gone close to the deck, all the funnels riddled with shell holes, one gun on the port side dismounted and several large shell holes above the water line. One lieutenant and 11 men have been killed and 50 wounded.

Tokio, August 12th.—The casualties in the Japanese navy on Wednesday, August 10th, numbered 170.

Washington, D. C., August 12th.—U. S. Consul-General Goodnow cabled the state department to-day from Shanghai that a Russian torpedo boat destroyer had just arrived there and that four Russian cruisers were expected to-morrow.

It is understood here that if the vessels intended to remain more than 24 hours at Shanghai they must disarm and remain tied up to the end of the war. Probably the treaty of peace which will finally conclude the war between Russia and Japan will contain a paragraph making disposition of Russian vessels which have thus taken refuge in Chinese waters. If Japan is the victor, she probably will claim the ships, otherwise they will be again armed and return to Russian ports.

Tokio, August 12th, 10.30 p.m.—The navy department to-night issued a brief statement of the engagement with the Russian Port Arthur squadron on August 10. The statement follows:—

"According to reports received to date, the enemy's fleet which emerged from Port Arthur was attacked by our fleet, south of Yen Tao island. The Russian fleet fled during the night. The cruisers Askold, Novik, and another cruiser, with one torpedo boat destroyer, went into Kiao Chou bay on the evening of August 11th. One torpedo boat destroyer went to Chefoo, and three of the enemy's battleships, one cruiser (probably the Diana), one hospital ship, two gunboats, and several torpedo boat destroyers seem to have separately returned to Port Arthur between dawn and noon of August 11. Our fleet appeared to have sustained no damage."

St. Petersburg, Aug. 12.—St. Petersburg tonight is divided between rejoicing over the birth of an heir to the throne and anxiety as to the fate of the Port Arthur squadron. All that seems to be known is that there was a day's running fight and a night torpedo attack in which some of the ships became separated from the squadron, but the latest dispatches from Shanghai seem to indicate that the Japanese were beaten off, though with what damage is not clear.

## War Notes

Continued From Page Six.

Though at least four Russian battleships appear to have reached the open sea, the cruisers Pallada, Askold and Diana and one battleship remain unaccounted for. The injuries sustained by the battleship Carevitch will enable her to remain at Tsingchow, but the Novik is under notice served by the German authorities to leave.

Chefoo, Aug. 13.—It was learned today that four Russian soldiers were carried away on the Ryshitelni. A junk which has arrived here, having left Port Arthur on August 8, brings confirmation of previous reports of severe fighting day and night. One Japanese shell struck the corner of a building in Port Arthur and killed or wounded 200 people. Fifteen six-inch shells fell at one spot on the water front in one day, but hurt no one. It is roughly estimated that the Japanese are from five to eight miles from Port Arthur.

St. Petersburg, August 12.—The emperor has received a dispatch from General Kuroki, dated August 11: "A forward movement of a small detachment of Japanese against the south front of the Manchurian army was observed today. Bands of Chinese bands, led by Japanese officers, are beginning to appear in the region of the Liao river, above New Chang, General Kuroki also reports a skirmish in which the Japanese had fifteen men killed or wounded and the Russians one man killed. He says no important changes have taken place on the east front.

Washington, D.C., August 12.—The Japanese legation has received a revised list of casualties on the Japanese side from the battle of Chinglin, on March 28, up to and including the battle of Yangtzing, August 1, showing the total estimated casualties to be 12,055.

The largest losses resulted from the battles of Kiechou and Nanshan, when 33 officers and 716 men were killed, and 3,455 men wounded. The next largest loss was in the battle of Telisu, June 15, when the total casualties were 1,173, including seven officers killed and 43 officers wounded. The actual known losses for the period of this report are given as follows:

Killed: Officers, 54; men, 1,500; wounded: Officers, 98; men, 6,330, to which are added the estimated casualties for some of the engagements, amounting to 4,066, making the grand total 12,055.

Berlin, August 12.—Chancellor von Bülow, who came to Berlin to see Emperor William yesterday, returned today to Norderney island, Hanover, where he is spending his vacation. This is interpreted to mean that he does not regard the arrival of Russian warships at Kiau Chou as being a serious incident, as otherwise he would remain here, or join the emperor at Wilhelmshöhe.

Washington, D.C., Aug. 12.—Attorneys representing the Portland Milling company called at the state department with more affidavits and papers intended to demonstrate the non-contraband character of the American cargo on the Hamburg-American liner Arabia, seized by the Vladivostok squadron. These documents will be dispatched at once to United States Ambassador McCormick at St. Petersburg, where the proceeding of the prize court which condemned part of the cargo, will come up for revision by a superior tribunal. To save all rights Secretary Hay will enter a formal protest against this and other seizures under like circumstances as a basis for claim for reimbursement in the future.

General Kuroki's headquarters in the field, (undated), via Fusin, Corea, August 11.—The Russians have recently been strengthening their defenses around Liao Yang.

The difficulties of newspaper correspondents in getting out telegraphic messages are increasing. A messenger sent by the correspondent of the Associated Press, bearing a despatch regarding a recent battle, was waylaid by Chinese on August 6, near Antung, and robbed of the despatch and his money. Messengers now fear to travel on account of the danger of meeting with violence.

London, August 12.—In the House of Commons yesterday Premier Balfour speaking on the same lines as Lord Lansdowne in the House of Lords, said he was perfectly confident that no neutral ships would again be sunk by the Russians. He fully agreed in the statement that such a sinking was an international outrage and the government had expressed to Russia in the clearest way possible that view with the above result.

London, Aug. 12.—According to the Shipping Gazette Japan has just ordered two large battleships of 23 knots from Vickers, Maxim and Armstrong, in addition to the battleship already building there.

## The Canadian Northwest Homestead Regulations

Any even numbered section of Dominion Lands in Manitoba or the Northwest Territories, excepting 8 and 16, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 15 years of age to the extent of one quarter section, of 160 acres, more or less.

ENTRY.—Entry may be made per the district in which the land to be taken is situated, or, if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situated, receive authority for some one to make entry for him. A fee of \$10.00 is charged for a homestead entry.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead, is required by the provisions of the Dominion Lands Act and the amendments thereto, to perform the conditions connected therewith, under one of the following upon and cultivation of the land in each year during the term of three plans:

(1) At least six months' residence years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, reside upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of the act of 1901 and amendments of 1902 and 1903, relating to the land, may be satisfied by such person residing with the father or mother.

(3) If a settler has obtained a patent for his homestead, or a certificate for the issue of such patent, countersigned in the manner prescribed by this Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon said land.

The term "vicinity" used above is meant to indicate the same township or an adjoining or cornering township.

A settler who avails himself of the provisions of Clauses 2, 3, or 4, must or substitute 20 head of stock, with cultivate 30 acres of his homestead, buildings for their accommodation, and have besides 30 acres subcultivated.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may be again thrown open for entry.

Application for patent should be made at the end of three years, before the local agent, sub-agent, or Homestead Inspector. Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands, at Ottawa, of his intention to do so.

Information.—Newly arrived immigrants will receive at the Immigration Office, in Winnipeg, or at any Dominion Lands Office, in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing land to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

## JAMES A. SMART,

Deputy Minister of the Interior. N.B.—In addition to Free Grant Lands to which the regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.
